### KELLY'S BULK GARDEN SEED

With the resurgence in home gardening, Kelly's bulk seed has become more popular than ever. Bulk seed is just a fraction of the price of packaged seed, and Kelly's has a large selection from which to choose. Many varieties are also heirloom and ALL our garden seed is Non-GMO.

Finally, some good news in the seed industry! Better growing conditions in the producing areas has led to a much better supply of forage and turf seed which means better prices for all of us! Shipping costs have also eased a little bit, so the outlook for this year is much more promising.

On the home gardening front, we still anticipate a higher than normal demand for garden seeds and plants. Rising food prices at the grocery store and general concern both politically and economically make planting a garden the sensible option for many people trying to provide for their families. We have been busy procuring seeds from all over the country to ensure we meet this demand.

As always, we thank you for your continued business and look forward to serving you this year!

Quality has always been our first consideration in seed. Buy with confidence!

## COVER CROPS

Cover Crops provide species and mixes that improve soil tilth, increase crop yields, break disease and pest cycles, reduce soil erosion, increase water infiltration, and recycle valuable nutrients.

**ECO-TILL RADISH** has an extra-large root system that allows it to pull nitrogen and other nutrients from deep within the soil and bring them back to the surface. Upon decomposition, the N and other nutrients become available to the next crop. **ECO-TILL** radish reduces soil compaction, increases soil organic matter, improves soil tilth and also enhances soil aeration. **6-10 lbs./Acre**

**FRIA ANNUAL RYEGRASS** is a late maturing, widely adapted diploid annual ryegrass with exceptional cold tolerance. Other benefits include improved disease resistance to crown rust, gray leaf spots, and helminthosporium leaf spot. **FRIA** provides excellent root penetration and erosion control. **15-20 lbs./Acre**
